Statistics: A First ...

This book covers the concepts and applications of statistics used in the functional areas of business-accounting, marketing, management, and economics, and finance. Focused more on concepts

Access Free Business

than on statistical methods, it shows readers how to properly use statistics to analyze data and demonstrates how computer software is an integral part of this analysis.

Business Statistics: A
First Course by David
M. Levine

Access Free Business

A focus on using statistical methods to analyse and interpret results to make data-informed business decisions Statistics is essential for all business majors, and Business Statistics: A First Course helps students see the role statistics will play in their own careers by providing examples
