, p>"James, in particular, makes for a compelling, intriguing figure, one who the reader struggles to 'figure out' and make sense of even after all is said and done. In James we see many of the binary themes that unite the work as a whole: in short, an ongoing battle between light and dark." -David, firstediting.com "Your memoir is poignant, candid, and deeply moving, but moreover, it has a depth that readers who look beyond the surface will pick up quickly, a depth that gives the book a certain thought-provoking complexity." -David, firstediting.com

On July 4, 1990, eighteen-year-old Stacey Lannert shot and killed her father, who had been sexually and emotionally abusing her since she was eight. She suffered terrifying abuse at the hands of her unstable, alcoholic father for ten years until the night she realised he was turning his attention towards her younger sister, who was on the verge of becoming his next victim. Stacey's trial went horribly wrong and she was found guilty of first-degree murder and sentenced to life in prison without the possibility of early release. But - after spending as many years behind bars as she had outside of them - her sentence was finally reviewed and she was freed. I Shot Daddy is Stacey's heartrending memoir of her harrowing childhood and the pain and protective love of her sister that led her to that horrifying night. An incredibly moving and gripping story which tells of an extraordinary recovery of a woman determined to fight for her freedom.

Sophie Young tells her shocking true story in Please Will Someone Help Me? Sophie Young was born into a dysfunctional family, with a violent mother and father. Sophie was routinely neglected and harmed, starved and left to fend for herself. Social workers were often involved but, despite numerous visits and extensive reports, nothing was ever done. When Sophie was six, her life took another horrible turn: her adored grandfather began to sexually abuse her. Please Will Someone Help Me? is Sophie Young's heartbreaking story about a young girl at the mercy of the adult world. With full access to her social work files, she shows how those who are meant to help children can be blind to the reality of their lives; but how, ultimately, love conquers all. Sophie Young was the eldest of three, born into a dysfunctional family that she fought for years to escape. Now forty years old, she lives in England with her husband and children, and works as a volunteer for a national children's charity.

Tens of thousands of children are removed from home each year due to some form of child maltreatment, usually physical neglect, physical abuse, or sexual abuse, although sometimes for emotional abuse as well. An additional significant number of children are victims of child maltreatment but remain in their home. Extensive research reveals the far reaching and long lasting negative impact of maltreatment on child victims, including on their physical, social, emotional, and behavioral functioning. One particularly troubling and complicated aspect is how the child victim forms (and maintains) a "traumatic bond" with his abuser, even becoming protective and defensive of that person despite the pain and suffering they have caused. This book will provide the reader with the essential experience of understanding how children make meaning of being maltreated by a parent, and how these traumatic bonds form and last. Through an examination of published memoirs of abuse, the authors analyze and reveal the commonalities in the stories to uncover the ways in which adult victims of childhood abuse understand and digest the traumatic experiences of their childhoods. This understanding can inform interventions and treatments designed for this vulnerable population and can help family and friends of victims understand more fully the maltreatment experience "from the inside out."

Sex, love, and the end of the world. 1000 years after Earth has been devastated by a viral plague, the few survivors turn to genetic engineering and advanced robotics to ensure the future of the human race. But not everyone is happy with artificial life living amongst humans, least of all Peyton Chase, a doctor with a harrowing past. When he's 'gifted' a state-of-the-art companion that he can't send back, Peyton is far from pleased. She's sentient. She's sexy. She's everything he doesn't want complicating his life. He calls her Hell. She calls him a lot of inappropriate things, at least in her mind. Because there are rules to a relationship like theirs. Master and Slave. She's supposed to obey him in all things. But if that's true, why can't she stop meddling in his life? She's a mystery that Peyton needs to solve. But time is running out for Hell. The deadly truth of her origins is about to catch up with her . . .and change the course of human civilization forever.

The harrowing true story of the young boy who captured the effort of the nation when he testified in court, to find justice against those responsible for his brother's death.

In April 2008, the world watched in horror as the news of Josef Fritzl made worldwide headlines. But for one British woman the story was not the stuff of unimaginable nightmares. Alice Lawrence knew all too well the torture suffered at the hands of a father whose depravity knew no bounds. She too was kept prisoner and repeatedly made pregnant - and it was only after the death of one of her babies that she finally found the courage to escape. Born in 1970, Alice grew up in the impoverished backstreets of an industrial Northern town with her parents and seven brothers and sisters. She was first raped by her father when she was 11. From the age of 15, she was made pregnant six times by him in an effort to secure additional state benefits. All bar one of her pregnancies failed, but her daughter never made it through her first year. The death of her baby was the spur to Alice bringing her father and abuser to justice. Finally, Alice can tell her deeply moving story of recovery from abuse.

A smart, funny take on the Charles Dickens classic BLEAK HOUSE-for anyone who's ever held on to a dream just a little too long. New York writer Ricki Carstone knows the odds of Hollywood actually turning her debut novel, Jarndyce and Jarndyce, into a movie are slim. But Moxie Bernard, the most famous teen on the planet, has signed on to star in the option. Plus, the producer is throwing her a super fabulous party in Hollywood (with Moxie!) to celebrate the relaunch of her book with a younger, sexier cover. Maybe it will happen after all. Quitting her dead-end paralegal job to move out to Los Angeles and keep an eye on the project, Ricki meets a handsome out-of-work actor who encourages her to try her hand at screenwriting, and an experienced screenwriter who is willing to help her for a fee, which only starts out small. And then there's her cute neighbor Simon, who thinks her new friends are just taking advantage of her. Will Ricki ever see her name in lights and make it big in Hollywood?

The heartbreaking but inspiring true story of a childhood of abuse, and finding a way out of the darkness. Peter was just a toddler when his mother tragically died after trying to abort a child they simply couldn't support. When his father swiftly replaced her with his mistress, Peter made the mistake of calling her 'Mummy'. Dragged outside, trampled on and shouted at, Peter never made that mistake again. Peter tried time and time again to flee the terrible abuse that dominated his childhood; his hands held against burning stoves, being thrown from a window and even his small feet nailed to the floorboards to prevent his running away. In *Never Call Me Mummy Again*, the devastating yet profoundly moving and uplifting memoir, Peter Kilby tells of how he finally escaped the stepmother from hell and started again.
