Inexperienced individual investors are the

# Online Library In Fintech China Shows The Way The Age Of The Appacus

main players in the emerging FinTech industry, and also suffer from frequent negative events in the markets. With 3,110 negative events and 467,594 transaction data of China's peer-to-peer lending market from 2015 to 2018, this paper analyzes how different types of platform negative events affect the decision-making of individual investors.

In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched

# Online Library In Fintech China Shows The Way The Age Of The Appacus

the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk.

Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution includes updated

# Online Library In Fintech China Shows The Way The Age Of The Appacus

indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited

# Online Library In Fintech China Shows The Way The Age Of The Appacus

by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at [www.worldbank.org/globalfindex](http://www.worldbank.org/globalfindex).

Provides a systematic and contextualized account of China's Fintech regulation.

Management at Frankfurt School of Finance & Management, Germany

Financial technology—or fintech—is gaining in popularity globally as a way of making financial services more efficient and accessible. In rapidly developing China, fintech is taking off, catering to markets that state-owned banks and an undersized financial sector do not serve amid a backdrop of growing consumption and a large, tech-savvy millennial generation. It is becoming increasingly likely that some of China's fintech firms will change the way the world

# Online Library In Fintech China Shows The Way The Age Of The Appacus

does business. In China's Fintech Explosion, Sara Hsu and Jianjun Li explore the transformative potential of China's financial-technology industry, describing the risks and rewards for participants as well as the impact on consumers. They cover fintech's many subsectors, such as digital payment systems, peer-to-peer lending and crowdfunding, credit card issuance, internet banks, blockchain finance and virtual currencies, and online insurance. The book highlights the disruption of traditional banking as well as the risks of fintech and regulatory technology. Hsu and Li describe

# Online Library In Fintech China Shows The Way The Age Of The Appacus

major companies including Alipay and Tencent, developer of WeChat Pay and a wealth-management business, and other leading fintech firms such as Creditease, Zhong An Insurance, and JD Finance. Offering expert analysis of market potential, risks, and competition, as well as case studies of firms and consumer behavior, China's Fintech Explosion is a must-read for anyone interested in one of the world's breakout sectors.

After more than three decades of average annual growth close to 10 percent, China's

# Online Library In Fintech China Shows The Way The Age Of The Appacus

economy is transitioning to a 'new normal' of slower but more balanced and sustainable growth. Its old drivers of growth -- a growing labor force, the migration from rural areas to cities, high levels of investments, and expanding exports -- are waning or having less impact. China's policymakers are well aware that the country needs new drivers of growth. This report proposes a reform agenda that emphasizes productivity and innovation to help policymakers promote China's future growth and achieve their vision of a modern and innovative China. The reform agenda is based on the three D's: removing Distortions

## Online Library In Fintech China Shows The Way The Age Of The Appacus

to strengthen market competition and enhance the efficient allocation of resources in the economy; accelerating Diffusion of advanced technologies and management practices in China's economy, taking advantage of the large remaining potential for catch-up growth; and fostering Discovery and nurturing China's competitive and innovative capacity as China approaches OECD incomes in the decades ahead and extends the global innovation and technology frontier.

From the New York Times bestselling author of Big Data, a prediction for how data will

# Online Library In Fintech China Shows The Way The Age Of The Appacus

revolutionize the market economy and make cash, banks, and big companies obsolete In modern history, the story of capitalism has been a story of firms and financiers. That's all going to change thanks to the Big Data revolution. As Viktor Mayer-Schönberger, bestselling author of Big Data, and Thomas H. Davenport, who writes for The Economist, show, data is replacing money as the driver of market behavior. Big finance and big companies will be replaced by small groups and individual actors who make markets instead of making things: think Uber instead of Ford, or Airbnb instead of Hyatt. This is

# Online Library In Fintech China Shows The Way The Age Of The Appacus

the dawn of the era of data capitalism. Will it be an age of prosperity or of calamity? This book provides the indispensable roadmap for securing a better future.

The Emerging Business Models describes current issues that the business leaders and professionals are facing, as well as developments in digitalization. This book consisting of 10 chapters introduces the new technology trends and challenges that businesses today face. The authors cover several increasingly important new areas such as the Fourth Industrial Revolution, Internet

# Online Library In Fintech China Shows The Way The Age Of The Appacus

of Things (IoT), financial technology (FinTech), social media, platform strategy, analytics, artificial intelligence (AI) and many other forces of disruption and innovation that shape today's realities of the world. These digital transformations are taking place at an exponential rate. The speed of innovations and breakthroughs is disrupting the traditional businesses. A better understanding of the changing environment in the new economy can enable business professionals and leaders to recognize realities, embrace changes, and create new opportunities – locally and
