Connect Master: Economics provides a revolutionary, digital-first approach for the principles of economics course that is ideal for a variety of course formats—traditional, online, flipped, or hybrid. Authors Carlos Asarta and Roger Butters offer the same core content covered in mainstream textbooks, but in a way that breaks free from the constraints of a traditional textbook's structure and format—empowering instructors to take advantage of new approaches in teaching methodology to revitalize their course and improve student engagement and outcomes. Instead of lengthy, narrative-driven chapters, content in Connect Master is organized into over 250 topics, each anchored by an engaging 2-4 minute professionally-produced video and supported by a host of dynamic learning resources such as interactive graphs, worked examples, helpful hints, and robust assessment content. Topics are delivered to students through the most advanced adaptive learning technology on the market, using continual assessment and artificial intelligence to personalize the experience for each individual student. The result is an immersive experience that is flexible, innovative, and aligned to how today's students learn and obtain information.

OVERVIEW McConnell, Brue, and Flynn's Economics: Principles, Problems, and Policies is the #1 Principles of Economics textbook in the world. It continues to be innovative while teaching students in a clear, unbiased way. The 19th Edition builds upon the tradition of leadership by sticking to 3 main goals: Help the beginning student master the principles essential for understanding the economizing problem, specific economic issues, and the policy alternatives; help the student understand and apply the economic perspective and reason accurately and objectively about economic matters; and promote a lasting student interest in economics and the economy. GLOBAL EDITION Reorganized chapters to move international economics topics closer to the front of the book, including adding a web chapter into the physical textbook. New feature box and in-text examples that reflect a more global mix of countries, companies, and personalities. Globally-focused data throughout the text and figures to illustrate topics such as the uses of money, oil production in OPEC nations, and global interest rates. Updated discussion of exchange rates to focus on the euro and euro-area countries. Revised end-of-chapter material highlighting Asian, African, Central American, and European examples.
