Wireless technology offers immense potential for competitive advantage, starting right now -- but today's wireless landscape can be extraordinarily confusing. This book gives decision makers the clarity, insight, and practical methodology they need to identify the right wireless solutions -- and implement them. Ian S. Hayes offers a practical framework for understanding today's complex array of wireless devices, solution providers, technologies, standards, architectures, and acronyms. Through real-world case studies, practical examples, and illustrations, he helps you determine which wireless solutions offer the greatest business value in your environment -- and walks you through assembling and integrating those solutions. The book contains a detailed glossary of terminology, as well as a comprehensive list of software vendors and consultants, updated on an ongoing basis at the book's companion Web site.

There are luxuries that most of us will never be able to afford in a lifetime, but just off the shores of the moneyed is a huge, fast growing, land of premium value which inspires people to get there, even if they need to stretch their budget to reach it. Premium by Design is a thoroughly researched, well argued and well presented study that identifies how global business leaders have succeeded in achieving margins by design. Thanks to original tools and processes, this book shows how you might also succeed. It is about better, but reachable and real, products and services. The book features insights from the world of customer science and design research. The key challenge for the world today is finding out how sustainable is the underlying process that is driving this apparent desire for more and more indulgent material possessiveness? This book might not have all the answers, but it will provoke and trigger a long overdue debate in the premium and image driven industries about tomorrow's values. As a result it is a must read for anyone in this market, or

aspiring to it.

Marketing is a way of doing business. It is all pervasive, a part of everyone's job description. Marketing is an expression of a company's character, and is a responsibility that necessarily belongs to the whole company and everyone in it.
