## Plumbing Engineering Services Design Guide.pdf

The Plumbing Engineer is involved with systems that overlap into the mechanical, civil, and chemical engineering disciplines. The Plumbing Engineer is in a key position to influence the water efficiency, sustainable site, energy, fire protection, and pollution systems of a facility. The future of Plumbing Engineering lies in the ability to design systems with the "whole building" in mind using, preserving, and respecting the natural biospheric earth systems of recycling air, waste, and water.
