Culture is embedded into every page of PLAZAS, giving your students an appreciation of different cultural practices and perspectives. Thanks to an exclusive partnership with the National Geographic Society, the fifth edition facilitates multi-modal interactions with cultural information in new and revised sections. The program's pedagogy continues to be firmly rooted in the research of the National Standards for Foreign Language Learning, or the Five Cs--Communication, Cultures, Connections, Comparisons, and Communities. The RUMBOS program, now in a new ENHANCED edition, provides robust support to help students 'fill in the gaps' that might be left from their first year of Spanish study, including review activities, indices of first year grammar and vocabulary, and student annotations. At the same time, RUMBOS carefully leads students to higher levels of communicative competence through the combination of functional and contextualized vocabulary presentations, targeted practice of more advanced and often problematic grammatical structures, and process-oriented reading and writing sections with integrated skill-building strategies. RUMBOS prepares students for advanced language study by involving them in authentic literary readings and academic writing tasks and by weaving in communicative activities geared to oral presentations. The RUMBOS program also provides plentiful instructor support through its transparent and flexible chapter structure, teacher annotations, and ancillary materials. Instructors using RUMBOS will find crafting creative, stimulating, and fun lesson plans effortless.
