Trends such as the massive growth in availability of air travel and air freight are among those which have led to aviation becoming one of the fastest growing emitters of greenhouse gases. These trends have also caused a shift in expectations of how we do business where we go on holiday and what food and goods we can buy. For these reasons aviation is (and is set to stay) high up on global political organizational and media agendas. This textbook is the first to attempt a comprehensive review of the topic bringing together an international team of leading scientists. Starting with the science.

A resource for industry professionals and consultants, this book on corporate strategy lays down the theories and models for revitalizing companies in the face of global recession. It discusses cutting-edge concepts, constructs, paradigms, theories, models, and cases of corporate strategic leadership for bringing about transformation and innovation in companies. It demonstrates that great companies are those that make the leap from ‘good’ results to ‘great’ results and sustain these for at least 15 years; it explores, reviews and analyzes great transformation strategies in this context. Each chapter in the book is appended with transformation exercises that further explicate the concepts.

The supercharged growth of this low-cost airline has actually changed the way countless people live their lives, whether it be Ireland’s new “Ryanair Generation,” for whom its cheap flights to Dublin have eliminated much permanent emigration to the UK, or the thousands of Britons now enabled to buy holiday homes in rural France. This is the first book to tell the full story of the Ryanair phenomenon, from its inauspicious beginnings to its current dominance, from the secret of its business strategy to its cavalier stunts and practices. Siobhan Creaton has spoken to Ryanair employees past and present, as well as its top management and those at its major rivals like British Airways and easyJet, to produce an authoritative, objective, and compulsive account of one of the most colorful companies in Europe.

This book provides an authoritative and practical guide to the assessment, management, treatment and care of pilots and other professional groups within aviation; covering a range of relevant topics, for health and human resources practitioners working in the airline industry. Pilot mental health has, hitherto, been regarded as a specialist topic in aviation medicine. Consequently, practitioners and researchers alike have been forced to consult specialist journals or seek out a relevant chapter on this topic in a general textbook to develop or update their understanding of the relevant issues. This book seeks to remedy this situation by gathering together all of the relevant insights into a single authoritative source gathered from the leading specialists in the field. It aims to cover all of the main relevant issues including the assessment, care, management and treatment of mental health problems, as well as the prevention of mental health problems among this occupational group.

Recognizing their role as “corporate citizens,” companies are seeking guidance on how to be true to their missions, principled in practice, and well regarded for their contributions to society. As this book reveals, the key lies in sincerity—the sum of values like authenticity, integrity, and trust. Countess Alexandra Christina, a European corporate director, and Timothy L. Fort, a leading American scholar, delineate a clear and actionable model for bringing sincerity to the business context. Their vision for sincerity complies with law, aligns corporate social and financial performance, and values corporate ethics in its own right, rather than as a means to an end. Underpinning this model is a synthesis of the top research in the field and a suite of new interviews with current and former CEOs. Tracing inspirational tales and scandals alike, this book shows how leaders can head up companies that more reliably make good decisions and conduct themselves in a trustworthy manner. It then concludes with twelve concrete actions that businesses can take to cultivate “the sincerity edge.”

Market-leading ADVERTISING, PROMOTION, AND OTHER ASPECTS OF INTEGRATED MARKETING COMMUNICATIONS, 9th Edition discusses all aspects of marketing communications, from time-honored methods to the newest developments in the field. Comprehensive treatment of the fundamentals focuses on advertising and promotion, including planning, branding, media buying, sales, public relations, and much more. Now in its tenth edition, Contemporary Strategy Analysis continues its tradition of accessibility, practicality, and real-world relevance to graduate and undergraduate students around the world. Focusing on strategic analysis, value creation, and implementation, this book provides a rigorous grounding in essential principles while offering up-to-date perspectives based on practices used at leading companies across industries and borders. Comprehensive coverage merges theory and application through new and updated cases, and the discussion surrounding business policy, business strategy, and the business environment links concept to context for a holistic understanding of the mechanisms at work. To keep pace with the field ’ s constant evolution, this new edition has been revised to reflect the current business landscape with expanded coverage of critical topics including disruption, innovation, technology, and other factors impacting strategic planning and implementation. Global perspectives throughout highlight the dynamic nature of strategic management in the face of borderless business, equipping students with the well-rounded knowledge base the future of business demands.

This book provides an overview of recent and future legal developments concerning the digital era, to examine the extent to which law has or will further evolve in order to adapt to its new digitalized context. More specifically it focuses on some of the most important legal issues found in areas directly connected with the Internet, such as intellectual property, data protection, consumer law, criminal law and cybercrime, media law and, lastly, the enforcement and application of law. By adopting this horizontal approach, it highlights – on the basis of analysis and commentary of recent and future EU legislation as well as of the latest CJEU and ECtHR case law – the numerous challenges faced by law in this new digital era. This book is of great interest to academics, students, researchers, practitioners and policymakers specializing in Internet law, data protection, intellectual property, consumer law, media law and cybercrime as well as to judges dealing with the application and enforcement of Internet law in practice.
