This book was the first I had read from Jason Myers, then I realized all of his books are the same.. drugs, sex, lies, scandal. It was entertaining, although some parts were so forced that it was obnoxious to read. Also, I feel like this book in particular tends to get lost in the details.

Myers' prose was a little minimalist for my usual taste, but I thought it actually served the story well. It was a harsh, gritty book not fit for the squeamish that offered a stark look at the world of an addict and the consequences of being a part of that world.

Jason Myers is a pretty good author. Although this story is like super dark, its a good story, "the mission" was my favorite by Jason Myers. But its still a great book, and I can't wait to read his next one.

Kaden Norris's life is shattered when his older brother-- his best friend and hero-- is killed in Iraq. He decides to fulfill his brother's last wishes left to him in a letter, urging him to break out of his sheltered existence, to read Chuck Pahaluniak, and to go to San Francisco and visit his cousin, James Morgan. James is a popular author, and a notorious bad-boy with a major cocaine addiction. Kaden's visit to San Francisco quickly turns from an exciting adventure to a wild disaster as he experiences things he's never dreamed of and uncovers secrets about his family that alter his world forever.

Enter apathy. Travis is back from college for the summer, and he's just starting to settle in to the usual pattern at home: drinking, drugging, watching porn, and hooking up. But Travis isn't settling in like he used to; something isn't right. Maybe it's that deadly debauch in Hawaii, the memories of which Travis can't quite shake. Maybe it's Laura, Travis's ex, who reappears on the scene after a messy breakup and seems to want to get together -- or not. Or maybe it's his suddenly sensing how empty and messed up his life is, and wanting out. But once you're at the party, it's tough to leave...

Dru and Gina are young, in love, and can't wait to get out of Marshall, Nebraska, a town where bloodline means everything and whoever has the money makes the rules. But all their dreams are shattered when Gina has a monstrous run-in with the son of the richest man in Marshall—an incident that leaves her broken, battered, and violated. Driven by rage, Dru and Gina take matters into their own hands, and quickly find themselves in over their heads. Without any other options, Dru and Gina are on the run. But there's more chasing them than they think, and love might not be enough to save them.

When his manic-depressive mother is institutionalized after trying to kill herself, fourteen-year-old Jaime is sent to San Francisco to live with his estranged father, whom Jaime blames for his mother's problems.

In this gritty novel from the author of *Exit Here and Dead End*, love is a high-priced and dangerous game: Play or be played. Alexander didn't believe in love at first sight until he met Patti. She's the kind of girl you hear about in songs: gorgeous, feisty, and dangerous. Being with Patti is better than any high, and he can't live without her. But Alexander's not the only one who wants to be with Patti. Burke ruthlessly takes what he wants and will kill to protect what is his. And he won't let Patti go without a fight. If Patti and Alexander are going to be together, their love will come at a steep price. Because some promises are meant to be broken, and not all debts can be paid in cash....

In 1944, as World War II is raging across Europe, fifteen-year-old Jack Raab dreams of being a hero. Leaving New York City, his family, and his boyhood behind, Jack uses a false I.D. and lies his way into the U.S. Air Force. From their base in England, he and his crew fly twenty-four treacherous bombing missions over occupied Europe. The war is almost over and Hitler near defeat when they fly their last mission -- a mission destined for disaster. Shot down far behind enemy lines, Jack is taken prisoner and sent to a German POW camp, where his experiences are more terrifying than anything he'd ever imagined.

Stewart has plenty of reasons to dislike his new art teacher, Wanda Gibbs. Not only did she give him the awful nickname "Wart" at school but she has also started dating his dad. She must have placed his dad under some sort of spell, which is entirely possible since, according to her very own son, she also happens to be a witch. But nobody, including Stewart's father, will believe this outlandish accusation, even though Wanda suggests that if Stewart will support her, she might use her magic to his benefit. Stewart can't help but notice his athletic ability mysteriously improves every time Wanda shows up at his basketball games. Is it really magic, or is it just Stewart's imagination? It's going to take a lot of ingenuity to solve the mystery of Wanda Gibbs.

A powerful novel about friendship, basketball, and one teen's mission to create a better life for his family. Written in the tradition of Jason Reynolds, Matt de la Peña, and Walter Dean Myers, *After the Shot Drops* now has three starred reviews! \* "Belongs on the shelf alongside contemporary heavy-hitters like Angie Thomas's *The Hate U Give*, Brendan Kiely and Jason Reynolds's *All-American Boys*, and Nic Stone's *Dear Martin*."—*School Library Journal*, starred review Bunny and Nasir have been best friends forever, but when Bunny accepts an athletic scholarship across town, Nasir feels betrayed. While Bunny tries to fit in with his new, privileged peers, Nasir spends more time with his cousin, Wallace, who is being evicted. Nasir can't help but wonder why the neighborhood is falling over itself to help Bunny when Wallace is in trouble. When Wallace makes a bet against Bunny, Nasir is faced with an impossible decision—maybe a dangerous one. Told from alternating perspectives, *After the Shot Drops* is a heart-pounding story about the responsibilities of great talent and the importance of compassion.

Human health depends on the health of the planet. Earth's natural systems--the air, the water, the biodiversity, the

climate--are our life support systems. Yet climate change, biodiversity loss, scarcity of land and freshwater, pollution and other threats are degrading these systems. The emerging field of planetary health aims to understand how these changes threaten our health and how to protect ourselves and the rest of the biosphere. Interdisciplinary in nature, Planetary Health explores how accelerating environmental change affects each dimension of human health. It then turns to the rich terrain of solutions, reimagining our cities, our food systems, our energy sector, the chemicals we use, even our economics and our ethics. The result is a comprehensive and optimistic introduction to a field that is being adopted by researchers and universities around the world.

Only master of mayhem Wally McDoogle can turn an innocent game of laser tag into international espionage. From the Swiss Alps to the African plains, Agent 00 1/7th bumblingly employs such top-secret gizmos as rocket-powered toilet paper, exploding dental floss and the ever-popular transformer tacos (don't laugh, they get great gas mileage) in a desperate attempt to stop the dreaded and super secret . . . Giggle Gun. It isn't until Wally finally takes responsibility for his actions (which unfortunately involves leaping out of a jet fighter traveling 1.2 gazillion miles an hour), that he is finally able to save his life. . . And while he is at it, the entire free world.
