Description. Tracking is the art of being able to track a human being or animal by the many signs and marks (sign) left on the ground and surroundings after their passage through an area. It is one of the most ancient of skills, mastered by our human ancestors as they relied on it to hunt and procure food.

Trackers are storytellers, deeply connected to nature, highly aware of the interconnectedness of all things. To track is to read and interpret an almost forgotten language in our modern times. The tracks, signs, sounds, weather, and more. To read and consciously interact with the language of nature. Tracking is an ancient art but is also just a relevant and useful to our modern lives.

Tracking is the process of automatically locating a point or series of points from frame to frame in a sequence, allowing the user to stabilise, track to or solve object or camera movement in the shot. The process started as one point tracking which could stabilise a shot or add matching motion to a composite.
